

Hello! I'm
Alfredo Ponce

END-TO-END PRODUCT FRAMEWORK

An iterative process designed to de-risk product decisions, align business goals with user needs, and ensure production-ready deliverables.

01. Research & Discovery

Business problem identification, stakeholder alignment, user research, and key performance indicators (KPIs).

02. Information Architecture

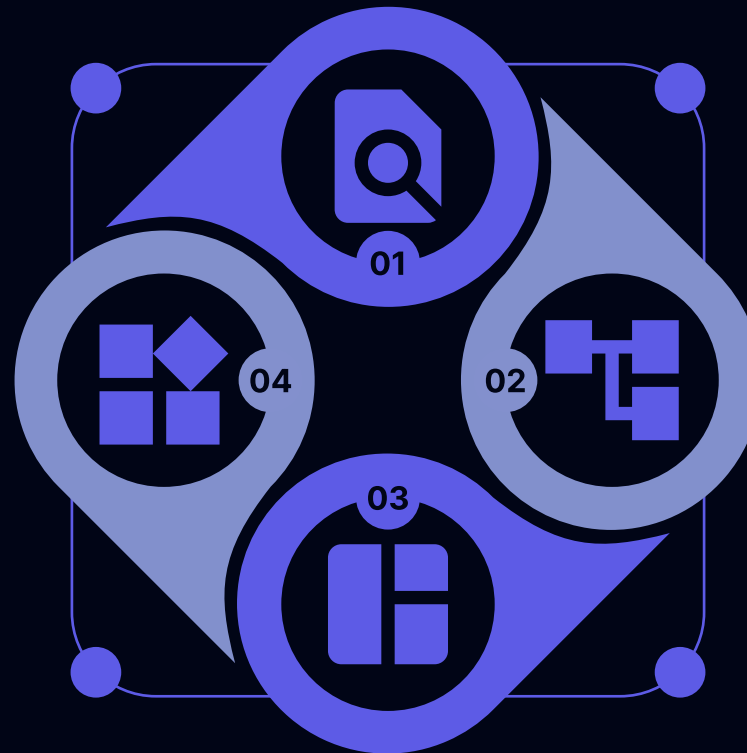

User journey mapping, data structuring, and flow diagramming for complex B2B and financial ecosystems.

03. UI & Prototyping

High-fidelity interface design, interactive prototyping, and continuous usability & accessibility (WCAG) testing.

04. Design Systems & Code

Design tokens creation, scalable component libraries, and friction-free developer hand-off (HTML/CSS/JS).

SELECTED WORK

FEATURED CASE STUDIES

High-impact case studies connecting user experience strategy, interaction design, and large-scale system infrastructure.

 ARCA CONTINENTAL

Tuali

B2B e-commerce ecosystem simplifying bulk ordering for merchants. We integrated an intuitive navigation architecture and an adaptive UI system to streamline complex transactional workflows.

[View Case Study →](#)

 SEGUROS MONTERREY

Oficina Virtual

Responsive web platform optimizing client management for the sales force. Driven by a scalable, accessible design system, we transformed complex operational processes into seamless experiences.

CASE STUDY 01

Role: Senior UX/UI Designer

THE CHALLENGE

Digitize and streamline the B2B ordering process for thousands of retail merchants, replacing friction-heavy traditional channels with an agile digital platform.

THE SOLUTION

Designed a high-efficiency e-commerce ecosystem featuring personalized catalogs, fast reorder workflows, and real-time order tracking.

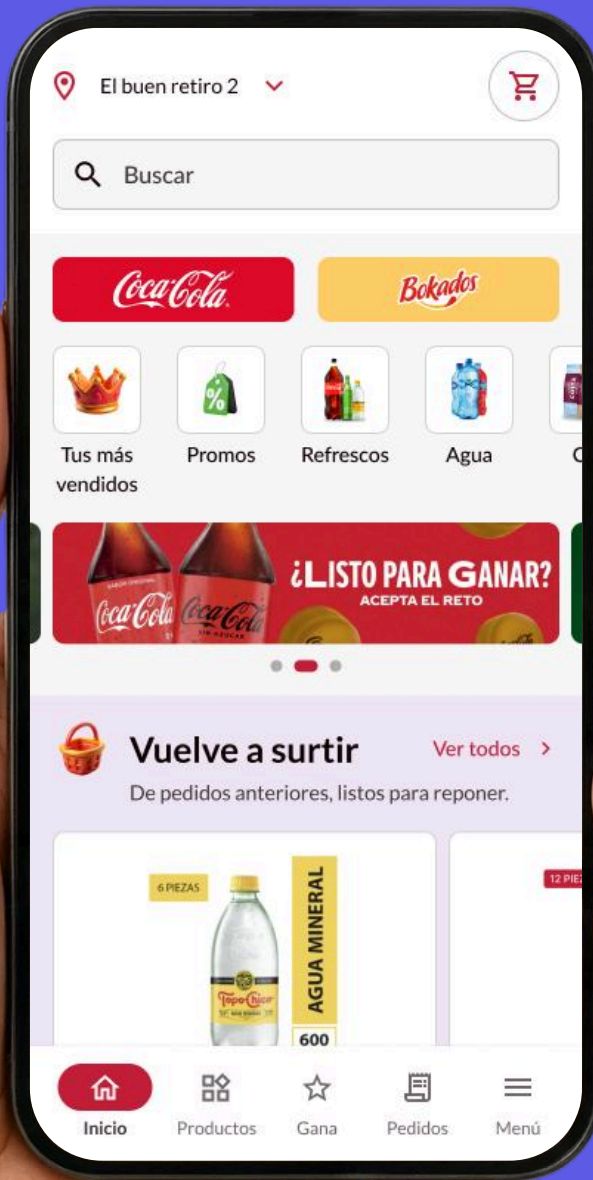

MY RESPONSIBILITIES

End-to-end user research, transactional user flows, and high-fidelity prototyping. Scaled a robust UI component system and led development handoff.

Explore the Full Interactive Case Study

Interact with high-fidelity prototypes, user flows, and design system documentation on the web version.

CASE STUDY 02

SEGUROS
MONTERREY

Oficina Virtual

Role: Senior UX/UI Designer

THE CHALLENGE

Simplify complex insurance quoting and policy self-management workflows, reducing heavy cognitive load for policyholders and agents.

THE SOLUTION

Diseño de un ecosistema de e-commerce de alta eficiencia con catálogos personalizados, flujos de reabastecimiento rápido y seguimiento de pedidos en tiempo real.

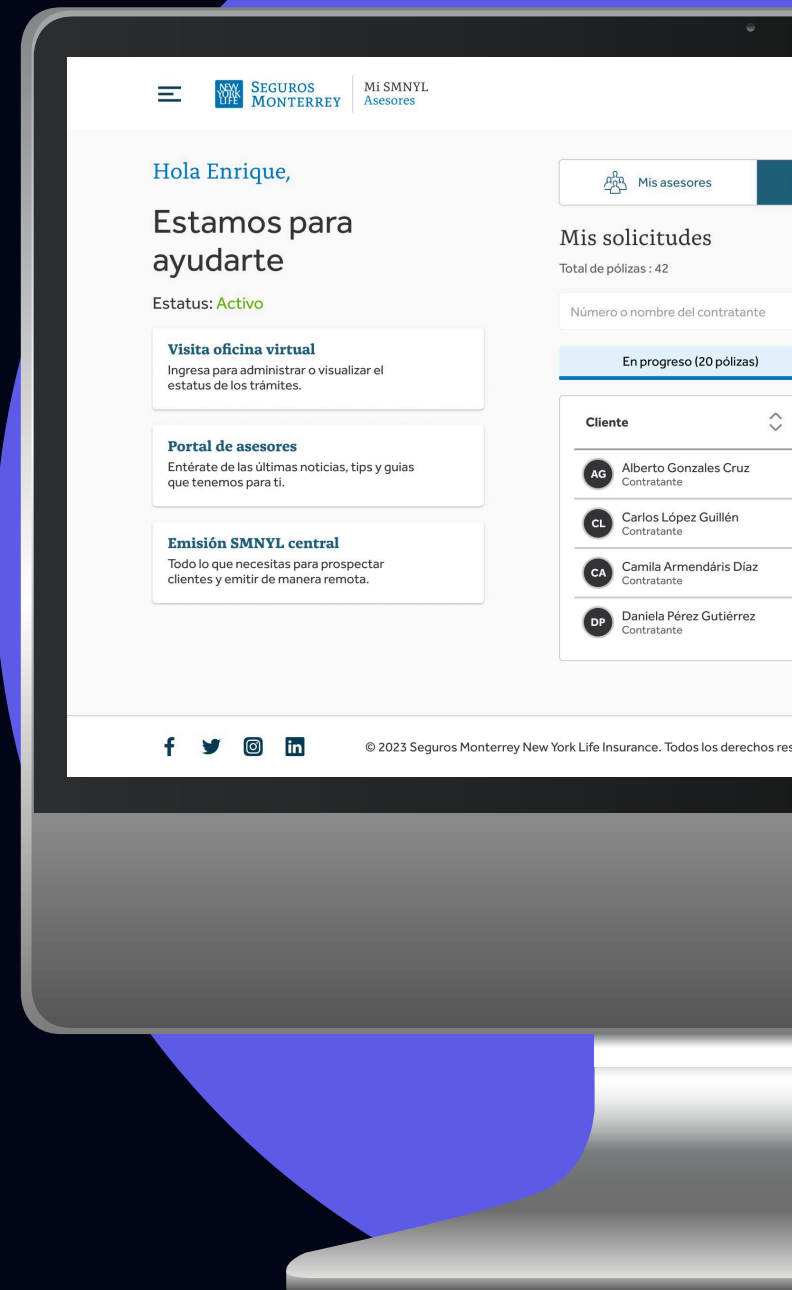

MY RESPONSIBILITIES

End-to-end UX research, information architecture, and quotation user flows. High-fidelity prototyping, UI system design, and usability optimization.

Explore the Full Interactive Case Study

Interact with high-fidelity prototypes, user flows, and design system documentation on the web version.
